

Desperate Israel

Description

Israel is getting desperate, because they have failed miserably to achieve anything since the last Lebanon war. Desperate malevolent people, sitting on atomic-bombs and mountains of rockets, are dangerous for all of us.

The good news: these guys are making big mistakes; every bomb on Syria and every sponsored ISIS fighter in Syria was and is a mistake that will turn viciously against them. The whole world today is openly discussing Zionism, which was a “no go” just 10 years ago.
