

The Hoax

Description

June 24, 2020 at 5:28 PM

I made an appointment at CVS in La Habra on June 15 at 9:30 to get tested for COVID-19. I had no symptoms and was just curious so I ended up never going to the appointment. I got a call a few days later from CVS stating my name saying my results were ready. Today, I received a letter in the mail with "my lab results" saying I tested positive for COVID-19!!!! This leads me to believe CVS is taking advantage of people who are going in to be tested, forging fake lab results, and marking people as being positive when they are not! Are they doing this because of the free money the government gives them for every test that is done? These results are now marked under my name and I bet I'm not the only one... there are probably so many other people this could be happening to that don't even know. This is a super serious situation that needs to be addressed and heard. DO NOT LET THEM GET AWAY WITH THIS!!!!

He did NOT get tested.

But they said he tested positive.
