Belarusian President Aleksandr Lukashenko said last month via Belarusian Telegraph Agency, BelTA., that World Bank and IMF offered him a bribe of \$940 million USD in the form of “Covid Relief Aid.” In exchange for \$940 million USD, the World Bank and IMF demanded that the President of Belarus:

- imposed “extreme lockdown on his people”
- force them to wear face masks
- impose very strict curfews
- impose a police state
- crash the economy

Belarus President Aleksandr Lukashenko refused the offer and stated that he could not accept such an offer and would put his people above the needs of the IMF and World Bank. This fact can be verified using most search engines.

Now IMF and World Bank are bailing out failing airlines with billions of dollars, and in exchange, they are forcing airline CEOs to implement very strict policies such as forced face mask covers on everyone, including small children, whose health will suffer as a result of these policies.

And if it is true for Belarus, then it is true for the rest of the world. The IMF and World Bank want to crash every major economy with the intent of buying over every nation’s infrastructure at cents on the dollar.
