

## Dr. Strangelove: Bill Gates

### Description

?

Nice little trick but it will not work. Gates is at the forefront of pretty much everything leading to this corona fiasco. Now, people point at him so he needs to try to get closer to the public to save face. Make no mistake...Gates is nothing more than an opportunistic piece of filth who couldn't care less about you. He is in it for huge profits...nothing more. He's constantly pushing for more testing as he knows that the test RT-PCR is useless, hence helps in creating more 'cases'. Bring the numbers up, scare citizens through bought and paid for media to push for his vaccine in the near future.

Bill Gates invested \$10 billion in vaccines and made \$200 billion in profits at the cost of paralyzing children in India and some African countries. Do you think he gives a shit about those kids? Everywhere he tested his polio vaccine in Africa ended up creating outbreaks of polio.

The pandemic was announced after a Mr. Neil Ferguson lead a team of people and organizations including: London's Imperial College, as well as the World Health Organization, MRC Centre for Global Infectious Disease Analysis and the Abdul Latif Jameel Institute for Disease and Emergency Analytics, announced that millions would die from the coronavirus. Immediately after, countries started to lock down and close borders. What do they all have in common? They are all extremely well funded by the Bill & Melinda Gates Foundation. Again, Neil Ferguson and his team were very generously funded by Bill Gates. Coincidence? I don't believe in coincidences.

More coincidences? Let me push this a bit further. Five months BEFORE the pandemic, a group created the "Event 201 Exercise" which was a "fictional" scenario to simulate a severe pandemic emergency. How's that for a coincidence?

"Event 201 was a 3.5-hour pandemic tabletop exercise that simulated a series of dramatic, scenario-based facilitated discussions, confronting difficult true-to-life dilemmas associated with response to a hypothetical but scientifically plausible, pandemic. Fifteen global business, government, and public health leaders were players in the simulation exercise that highlighted unresolved real-world policy and economic issues that could be solved with sufficient political will, financial investment, and attention now and in the future.

"The exercise consisted of pre-recorded news broadcasts, live "staff" briefings, and moderated discussions on specific topics. These issues were carefully designed in a compelling narrative that educated the participants and the audience."

The event was funded by: The Johns Hopkins Center for Health Security, World Economic Forum, and Bill & Melinda Gates Foundation. They jointly propose an action plan which is exactly what was done since last March. You will find the link below stating what they recommended.

Let's move another step forward.... Both The Johns Hopkins Center for Health Security and World

---

Economic Forum are also extremely well-funded by the Bill & Melinda Gates Foundation. So, basically, they simply supported whatever the Gates family wanted.

Let this sink in for a minute... Event 201 was a 3.5-hour pandemic tabletop exercise that simulated a series of dramatic, scenario-based facilitated discussions, confronting difficult, true-to-life dilemmas associated with response to a hypothetical but scientifically plausible pandemic that happened 5 months before the pandemic. An event completely done under the Gates rules.

You simply cannot have all those facts about Gates' involvement from this exercise, the recommendations which were clearly followed right up to social media deleting everything that went against the scenario not to mention proof that the Gates funded Neil Ferguson and his report claiming millions will die forcing governments to lockdown, as well as the World Health Organization, MRC Centre for Global Infectious Disease Analysis and the Abdul Latif Jameel Institute for Disease and Emergency Analytics to support the narrative, and not aiming at the Gates' for all of this mess.

In the 'Plandemic' video, they talk about how the US invested in the Wuhan lab coronavirus, proving that both China and the US were well aware of this virus. When it was released in China, it was not an accident! Someone was paid to do so. All the preparations were in place thanks to "Event 201," so all they needed was to have that virus out in public. The US blames China while China blames the US – and they are both right. Bill & Melinda Gates are extremely well-connected, including being on very good terms with China's Xi Jinping.

The Gateses have been working on 'tracking vaccination coverage and logistics management' since 2013.

"May 2012 the World Health Assembly recommended the establishment of a comprehensive vaccination resource tracking system, as outlined in the Global Vaccine Action Plan (GVAP) developed by the Decade for Vaccines Collaboration."... The world health assembly is part of the World Health Organization which is controlled by Bill Gates.

Bill Gates, who is not a doctor, or a scientist, much less a specialist in viruses, said: "I believe that humanity will beat this pandemic, but only when most of the population is vaccinated. Until then, life will not return to normal." Who the FCK is he to say this and get away with it? Funny how no one ever questions what he says...right? When you are the richest man in the world, you buy everyone you need to get what you want.

<https://www.centerforhealth...>

Look at all the points including #7 where it states: "Governments and the private sector should assign a greater priority to developing methods to combat mis- and disinformation prior to the next pandemic response. Governments will need to partner with traditional and social media companies to research and develop nimble approaches to countering misinformation. This will require developing the ability to flood media with fast, accurate, and consistent information. Public health authorities should work with private employers and trusted community leaders such as faith leaders, to promulgate factual information to employees and citizens. Trusted, influential private-sector employers should create the capacity to readily and reliably augment public messaging, manage rumors and misinformation, and amplify credible information to support emergency public communications. National public health agencies should work in close collaboration with WHO to create the capability to rapidly develop and

release consistent health messages. For their part, media companies should commit to ensuring that authoritative messages are prioritized and that false messages are suppressed including through the use of technology.”

That’s exactly what was done since last March. All the scientists and doctors posting information that dared to go against the narrative saw their posts deleted. Coincidence?

If someone had told me that this “Event 201” happened, I would never have bought it without proof. Here it is now, for all to see.

When you have so many things pointing in the same direction, you need to see this for what it is: A well-prepared scenario to cripple the world, forcing citizens to acquiesce to complete control so that someone can make HUGE profits and take over control of humanity through “tracking vaccination coverage and logistics management”. Which company could take over tracking people, having electronic chips under your skin and follow you world wide? MICROSOFT!
