

German Corona Investigative Committee

Description

Dr. Reiner Fuellmich is one of four members of the German Corona Investigative Committee. In this video he is describing how there is no legal doubt about the possibility of a class action lawsuit against those responsible for the lockdowns. From the local level all the way to the WHO and many pharma companies in between.

Since we received many requests from people on how to get involved and how to get help in starting their lawsuits against the coronavirus restrictions, here is Dr. Dr. Reiner Fuellmich's website: [Dr. Reiner Fuellmich](#). It is available only in German, but you can contact him via phone or email [here](#). Also you may join the effort by linking to [Corona Schadensersatzklage](#).

Americans have traditionally rallied behind a sick President.

After Ronald Reagan was shot in 1981, he won the next election in a landslide.
