As for excess deaths, there certainly have been excess deaths. 40% of confirmed COVID deaths in nursing homes. 99.8% of others are cured by their immune systems. The other deaths were due to lockdowns due to sick people being locked out from getting medical care due to cancelled appointments/surgeries and fear of going to ER during heart attacks/strokes. No doubt there were more suicides although many were not recorded as such because medical examiners could not investigate. Some of these deaths tested positive for the virus, but did not die of the virus or even have the virus (already recovered or false positive), but were counted as COVID deaths.

The were also economic hardships during and after lockdowns. There is dated data (from 1981) showing a 37,000 increase in deaths for each percentage-point rise in the unemployment rate. It comes from a book called "Corporate Flight: The Causes and Consequences of Economic Dislocation" by Barry Bluestone, Bennett Harrison and Lawrence Baker.

According to the study a 1 percent increase in the unemployment rate will be associated with 37,000 deaths [including 20,000 heart attacks], 920 suicides, 650 homicides, 4,000 state mental hospital admissions and 3,300 state prison admissions."

Multiply by 1.5 -2.0 to adjust for increase in population today. This doesn't even include the excess deaths from lockdowns. All this is the reason for the majority of excess deaths. Not all COVID

There was a lot of planning that went into this, not just nationally but globally. In order to bring in a New Order the Old Order must be destroyed. This one actually began in 1968 with RFK jr. assassination and Brzezinski's book on the coming Technocratic Era. He later cofounded the TLC with Rockefeller, Bush, Kissinger, Volcker and Carter and they rolled out Project Democracy which called for a disintegration of society and the economy over the next several decades which has indeed occurred with the pace accelerating in lockstep with technological advances.

Now the technology and tools have given them the means to transform us into their Utopian World Order (dystopian for us), where they will achieve Authoritarian Technocratic Control over every individual and pursue their Transhumanist agenda to become Homo Deux while leaving the rest of us behind as a subspecies like the Neanderthals. Those who will be spared to serve their God-Human masters will submit by wearing a mask and taking a knee and many shots. The rest will be replaced by

AI and robotics, disposed of in some manner. According to Deagel.com there will be 99 million Americans in 2025.

A lot of planning went into this, especially over the last decade.
I see the 2009 Swine Flu was a trial run for COVID (and SARS before that). The 3 things they learned was 1) they needed to flatten the curve to delay herd immunity until a vaccine was developed. 2) They also needed to inflate the death count by changing how cause of death is defined, and 3) they needed to increase testing especially when death rates dropped at end of the flu season and count asymptomatic positives as cases.

In 2010 Rockefeller Fund issues its Lock Step report and Gates declares this to be the Decade of Vaccines. The Billionaires Good Club meets and agree to tackle the population problem.

Global Warming /Climate Change is hyped over the next decade with the push for a Green Economy escalating at the start of 2019. Larry Fink /Black Rock was cofounder of the 2015 Task Force on Climate-related Financial Disclosures (TCFD). In 2016 the TCFD along with the City of London Corporation and the UK Government created the Green Finance Initiative, aiming to channel trillions of dollars to "green" investments.

In the 6 months before COVID several Central Banks and Larry Fink declared the urgency of Climate Change and Sustainable Development. Larry Fink tells companies in January that he will pull his 7 trillion in investments from companies who don't focus on sustainable development. Now he is directing trillions in Fed money to companies he favors

Larry Fink proposed an Emergency Financial Bail Out to the Fed in August, 2019 claiming the Fed was running out of tools. A mini–crisis in September (false flag) when banks decided to lend to each other followed as a warning, and COVID then gave Larry and his crew what he wanted. Larry incidentally was one of Trump's Personal Wealth Managers when he did that sort of thing. Made him a lot of money according to Trump.

AI, Robotics, IoT, 5G are the key to the 4Th IR and private public philanthropic funding goes into overdrive as plans for Digital Currency, Digital ID, Social Credit Scores planned.

In 2018 Trump created the NSAIC for AI development led by Eric Schmidt , former Google CEO, Bilderberger and Team 8 member. In 2019 his report stated we needed to transform society to become more like China so that we could compete with them without being hindered by concern of violating privacy and rights. He also suggested social credit scores like in China could be used without being punitive. Trump issued an EO not long after making AI a national priority. He also issued an EO making flu vaccinations a national security concern.

Censorship against Climate Deniers and Anti-Vaxxers escalated during the decade. Later expanding to other realms using Prop or Not, Poynters Gates funded IFCN , Obamas Countering Foreign Propaganda Act and in 2018 DHS compiling files on social media influencers using private contractors hired to monitor and collect info on them.

First Shelter in Place (Stay at Home) orders issued during Boston Marathon Bombing in 2013 to gage compliance of the population for future use.

17 Sustainable Development Goals for Agenda 2030 agreed to in 2015

Barr released his Precrime program in October and later requested the authority for precrime detentions during COVID outbreak.

GOF research on natural viruses and synthetic virus development amply funded , as are Pandemic Prevention and DNA/mRNA vaccines. Trump lifted the temporary ban on GOF research in 2017 and Fauci immediately resumed funding some of which went to Wuhan.

Dr Fauci said there will be a surprise outbreak during the Trump administration. He said this in a speech in January 2017 -given at Georgetown University on Pandemic Preparedness.

CEPI was founded in Davos in 2017 by the governments of Norway and India, the Bill & Melinda Gates Foundation, the Wellcome Trust, and the World Economic Forum . Its mission is to stimulate and accelerate the development of vaccines against emerging infectious diseases and enable access to these vaccines for people during outbreaks.

In September 2019 European Commission (EC) "Roadmap on Vaccination" months before the COVID-19 pandemic broke out. The Roadmap will lead to a "commission proposal for a common vaccination card / passport for EU citizens by 2022".

In September 2019 the Global Preparedness Monitoring Boards 15 board members issued their first annual report. Fauci and Chinas CDC Director are both on the board (as is Russia).

In the report they state that by September 2020:

> "The United Nations (including WHO) conducts at least two system-wide training and simulation exercises, including one for covering the deliberate release of a lethal respiratory pathogen."

Of course Event 201 occurred in October (following Crimson Contagion exercise in first half of 2019) and then comes COVID, supposedly in circulation at the start of October.

Pompeo called the COVID outbreak a "live exercise" in March.

What next? Operation Blackout? War with China (an exercise, not real)? another Pandemic virus or just a 2nd wave of COVID enhanced by a nasty new flu vaccine specially made for the elderly over 65 (Quadravalent Fluad)? Maybe all of the above? Guess we will have to see what comes.
