Must-watch Documentary: 'Pl@ndemic 2: Indoctrination'

Description

This is the follow-up full-length documentary to the short film interview of Dr. Judy Mikovits that went viral in May.

Watch and share this online while you can, but beware that it will almost certainly be throttled, blacklisted and censored into 'non-existence'. Within hours of the film's launch, the creators' website has already <u>been taken down</u>. As explained in the film itself, the Internet is now almost totally theirs to control and manipulate.

Message about the film from *PI@ndemic* producer Mikki Willis:

After 3 very long months, *PI@ndemic 2: Indoctornation*, is here.

What began as a follow-up to *PI@ndemic Part 1* radically evolved over time. As the world became increasingly divided over hot-button topics such as face masks, social distancing, case numbers, hydr0xychloroquine, etc., we made the decision to exclude any mention of those subjects, and instead focus on following the money.

With the help of white-collar crime expert Dr. David Martin, Pl@ndemic 2 exposes the disturbing reality of conflicts of interest, the patent game, and the deadly corruption that pervades our global health organizations.

Plandemic part 1 is still available >UPDATED 23 Aug 2020
