

VT Blockbuster Exclusive: Why Israel Surrendered to Hamas, Smuggled Videos

Description

via [Veterans Today Editors](#)

This exclusive video was just received from Israel, smuggled out at great risk, the only video so far showing street fighting the media censored 100%.

The same source sent this video of Israeli police murdering a small Palestinian child through suffocation.

This is a real video of real Israeli police murdering a real child, under 10. Now, do you wonder why some of us object to Israeli's training our police and why we tend to connect this behavior seen above, which is, we are also told, commonplace in Israel, to America's police and their murders?

These two videos need to be seen by every elected official in America. Make sure this happens. Spread the word.
