
Depopulation by Any Means! Dr. Bryan Ardis, Interviewed by Dr. Reiner Fuellmich

Description

Having followed the German Investigative Committee practically since its inception a year ago, we at Algora Blog are starting to be concerned that Dr. Reiner Fuellmich could actually be a fraud. It is more than a year since he furiously trumpeted his legal action he was preparing worldwide, in multiple countries, etc, in order to bring the perpetrators of the Covid fraud to a Nuremberg-like tribunal, and yet he hasn't done a thing so far whatsoever. Other groups have taken legal action long since, while he is still mesmerized by his guests as if this investigation just started yesterday. What is his plan, what is his role? Just a lot of talk, a lot of platitudes from him, a lot of head shaking and naive comments.

Moreover, for someone involved in this "investigation" on a daily basis, having talked to hundreds of prominent doctors and whistleblowers, he seems unnaturally uninformed.

Still, listen to Dr. Bryan Ardis, it is eye opening as he brings knowledge and precise information about the premeditated criminal project of Covid-19 to massacre humanity, perpetrated and orchestrated with full foresight by the lead conductor, the so-called doctor, Fauci.
