

## The World Is Heading For An Energy Cliff

### Description

This is the newest interview by Steve St. Angelo with Tom at Palisades Radio on how the world is heading towards the Energy Cliff. Steve does an excellent job of discussing these most critical energy issues that most tend to ignore. **Most people have no idea how the Energy Cliff is impacting the global economy and their lives. Think about the scandemic, population reduction and vaccines.**

**It's the Energy Cliff, stupid!**
