Holy Moly! The most globalist and interventionist Pope since the Crusades of the 12th Century has formalized an alliance with the largest figures in global finance led by none other than that noble banking family, Rothschild. The new alliance is a joint venture they call “Council for Inclusive Capitalism with the Vatican.” The venture is one of the more cynical and given the actors, most dangerous frauds being promoted since Davos WEF guru and Henry Kissinger protégé, Klaus Schwab, began to promote the Great Reset of the world capitalist order. What and is behind this so-called Council for Inclusive Capitalism with the Vatican?

On their website they proclaim in a typical UN doublespeak, “The Council for Inclusive Capitalism is a movement of the world’s business and public sector leaders who are working to build a more inclusive, sustainable, and trusted economic system that addresses the needs of our people and the planet.” A more sustainable, trusted economic system? Doesn’t that sound like the infamous UN Agenda 21 and its Agenda 2030 daughter, the globalist master plan? They then [claim](#), “Inclusive Capitalism is fundamentally about creating long-term value for all stakeholders – businesses, investors, employees, customers, governments and communities.”

They [continue](#), “Council members make actionable commitments aligned with the World Economic Forum International Business Council’s Pillars for sustainable value creation—People, Planet, Principles of Governance, and Prosperity—and that advance the United Nations Sustainable Development Goals.”

In announcing the deal with the Vatican, Lynn Forester de Rothschild declared, “This Council will follow the warning from Pope Francis to listen to ‘the cry of the earth and the cry of the poor’ and answer society’s demands for a more equitable and sustainable model of growth.”

Their reference to Klaus Schwab’s World Economic Forum is no accident. The group is yet another front group in what is becoming a globalist bum’s rush to try to convince a skeptical world that the same people who created the post-1945 model of IMF-led globalization and mega-corporate entities more powerful than governments, destroying traditional agriculture in favor of toxic agribusiness, dismantling living standards in industrialized countries to flee to cheap labor countries like Mexico or China, will now lead the effort to correct all their abuses? We are being naïve if we swallow this.

Rothschild and pals

First off it is useful to see who are the “inclusive” capitalists joining forces with the Pope and Vatican. The founder is a lady who carries the name Lady Lynn Forester de Rothschild. She is the wife of the 90-year old retired mega-billionaire head of London’s NM Rothschilds Bank, Sir Evelyn de Rothschild. Lady Lynn however is from “commoner” roots, born into a US working class family in New Jersey whose father, as she tells, worked two jobs to put her and her brothers through law and medical schools. She seemed to have had some influential mentors, as she went to Wall Street then to telecoms including Motorola and made reported tens of millions before hooking up with Sir Evelyn and his reported \$20 billion in assets. Reports have it that Henry Kissinger played a personal role in encouraging the Transatlantic union of the two.

Lady Lynn is interesting as well beyond her famous husband. According to the list of names of those who flew on the private jet of convicted child sex trafficker and reported Mossad operative Jeffrey Epstein, one name that [appears](#) is “de Rothschild, Lynn Forester.”

It is interesting to note, that the same Lynn Forester in 1991, before she took Sir Evelyn as her husband, generously let a British friend have full use of one of Lynn’s Manhattan apartment properties, following the apparent murder of the woman’s father, British media tycoon and Mossad agent, Robert Maxwell. The British friend of Lynn, Ghislaine Maxwell, today is awaiting trial for complicity in child sex trafficking as the partner of Jeffrey Epstein. Maxwell reportedly maintained the Manhattan address of Lady Lynn until very recently to register a bizarre non-profit called Terramar that she and Epstein set up in 2012, allegedly aimed at saving our oceans. When Epstein was arrested she quickly dissolved the non-profit. One of the donors to Ghislaine’s TerraMar was something called the Clinton Foundation, which [leads](#) to the next friend.

Lady Lynn has another long-time friend named Hillary Clinton, whose husband, Bill, was also logged on Epstein’s Lolita Express private jet, around two dozen times. Lynn and her new husband, Sir Evelyn, in fact were so close to the Clintons that in 2000 the Rothschild newlyweds spent part of their honeymoon as guests at the White House of Mr and Mrs Clinton. Lady Lynn after that became a major fund-raiser in 2008 and again 2016 for a possible Hillary bid for President, called a “bundler.” She also advised Hillary on her economic program, a free market one based on Adam Smith as she described it in an interview once.

Lady Lynn’s “Guardians”

The Rothschild venture with the Vatican at this point, in addition to co-founder Lady Lynn Forester de Rothschild, includes hand-picked money moguls and their select foundations who pompously call themselves the “Guardians.” That’s a term sounding more like a South Side Chicago gang or some kind of mafia overlords. They call themselves the moral guardians, together now with their new friends at the Vatican, for reform of capitalism.

The Guardian member list includes Rajiv Shah, the CEO of the Rockefeller Foundation, and former partner of the Gates Foundation’s AGRA scam to introduce GMO seeds in Africa. The Rockefeller Foundation has been involved in promoting a pandemic “lockdown” since 2010, and is a core part of the WEF Great Reset agenda. He just released a Rockefeller report, Reset the Table: Meeting the Moment to Transform the US Food System.

Rothschild’s Guardians also include Darren Walker the CEO of the Ford Foundation. Those two

foundations, Ford and Rockefeller, have done more to shape an imperial American foreign policy than even the US State Department or CIA, including the funding of the failed Green Revolution in India and Mexico, and the creation by Rockefeller funds of GMO crops.

The head of DuPont, a GMO giant and chemicals group is another Guardian as well as scandal-ridden vaccine and drug companies, Merck and Johnson & Johnson. Merck lied about the risks of its arthritis drug Vioxx until more than 55,000 users [died](#) of heart attacks. Johnson & Johnson has been involved in numerous frauds in recent years including around negative effects of its anti-psychotic drug Risperdal, illegal presence of cancer-causing asbestos in its baby powder, and potentially thousands of legal actions for its role as a leading supplier of the opioid in Purdue Pharma's [deadly](#) prescription painkiller OxyContin.

Other Guardians include CEOs of Visa, Mastercard, Bank of America, Allianz insurance, BP. In 2016 Visa along with USAID were behind the catastrophic Modi experiment to introduce a cashless economy in India.

Notable also is Guardian Mark Carney, former Bank of England head and also advocate of cashless digital central bank currencies to replace the dollar. Carney is now United Nations Special Envoy for Climate Action and Finance.

Carney is also a Board member of the Davos World Economic Forum, the public promoter of the Global Reset of capitalism to impose the dystopian Agenda 2030 "sustainable" economy. In fact several of Rothschild's Guardians are on the WEF Board, including billionaire Marc Benioff, founder of cloud computing Salesforce, and OECD head Angel Gurría. And ex-Credit Suisse CEO, Tidjane Thiam is on the International Business Council of the World Economic Forum.

Other Guardians of the inclusive capitalism transformation include the head of Bank of America, which bank was sued by the US Government for fraud connected with the 2008 US subprime mortgage crisis, as well as for laundering money for the deadly Mexican drug cartels and Russian organized crime. The select Guardian list also includes Marcie Frost, the controversial head of CalPERS, the huge [fraud-ridden](#) California state pension fund managing over \$360 billion.

The head of State Street Corporation, one of the world's largest asset management companies with US\$3.1 trillion under management, is another Guardian. In January 2020 State Street announced it would vote against directors of companies in major stock indices that do not meet targets for environmental, social and governance changes. This is what is called Green Investing, as part of so-called Socially Responsible Investing. The WEF strategy, pushed also by WEF board members like Larry Fink of BlackRock, reward companies that they deem "socially responsible." This is the key to the inclusive capitalism agenda of not just Rothschild's inclusive capitalism Guardians, but also the WEF.

Their website claims that the Guardians manage more than \$10.5 trillion dollars and control companies that employ 200 million workers. Now a brief look at their new Vatican partner.

Vatican Morals?

Ironically, or maybe not, Pope Francis, the partner chosen to give Rothschild's group of mega-capitalists "moral" credibility, is himself embroiled in what could be the largest financial scandals, fraud and misuse of church funds in the modern history of the Vatican. That, despite the fact Pope Francis

declared as new Pope in 2013, one of his main tasks would be to clean up the scandal-ridden Vatican finances. That has hardly taken place even after more than six years. Some Vatican observers even claim the financial corruption has worsened.

The unravelling scandal revolves around now-disgraced Cardinal Angelo Becciu who until 2018 was de facto chief-of-staff to the Pope and regular confidante. Becciu was Substitute for General Affairs in the Secretariat of State, a key position in the Roman Curia until June, 2018 when the pope elevated him to Cardinal, ironically enough, responsible for the Congregation for the Causes of Saints. Becciu, clearly no saint, was able to invest hundreds of millions even billions over years of Church funds, including donations for the poor in Peter's Pence, into projects he chose with a former banker from Credit Suisse. Projects [included](#) €150 million share in a luxury London real estate complex and \$1.1 million into a film, Rocketman, about the life of Elton John. That comes to light as the ongoing Vatican child sex scandals caused Pope Francis to defrock Cardinal Theodore McCarrick of Washington, the first Cardinal to fall in the Church's deep sexual abuse charges.

Italian press reports that the Pope knew about the dubious investments of Becciu and even praised them before the depth of the scandals broke. In November, 2020 Italian police [raided](#) the residence of Becciu's former Vatican accountant and found €600,000 in cash and evidence the Vatican employee received \$15 million in fake invoicing over years.

With a background like this, the new Council for Inclusive Capitalism with the Vatican of Lynn de Rothschild warrants close scrutiny as they clearly plan big things along with Klaus Schwab's World Economic Forum to "reform" the world economy, and it won't be nice or moral we can be sure.
