

Dmitry Medvedev's Predictions? or Wishful Thinking?

Description

Predictions of Dmitry Medvedev given today ([translated from his Telegram channel](#))

What could happen in 2023:

1. Increase in oil prices to \$ 150 per barrel and gas prices to \$ 5,000 per 1,000 cubic meters.
2. The return of the UK to the European Union.
3. The collapse of the European Union after the return of the UK and the abolition of the euro as the currency of the former EU.
4. The seizure by Poland and Hungary of the western regions of the former Ukraine.
5. The creation of the Fourth Reich on the basis of Germany and the satellites that joined it (Poland, the Baltic countries, the Czech Republic, Slovakia, Romania, the Kiev Republic, etc. marginals).
6. The war between France and the Fourth Reich. The partition of Europe, including the new partition of Poland.
7. Separation of Northern Ireland from the Kingdom of Great Britain and Northern Ireland and accession to the Republic of Ireland.
8. The Civil War in the USA, the separation of California and Texas into independent states. Creation of the union State of Texas and Mexico. The subsequent victory of Elon Musk during the US presidential election in some of the states assigned to the Republicans after the Civil War.
9. Transfer of all major stock exchanges and financial activity from the USA and Europe to Asia.
10. The collapse of the Bretton Woods financial system, including the collapse of the IMF and the World Bank. Abandoning the euro and the dollar as world reserve currencies. The return of the gold standard. Transition to the active use of digital fiat currencies
