

Will 2023 be a “Tsunami of Regret”?

Description

Excerpts from Brian Shilhavy of [Health Impact News](#)

[. . .] Dr. Jane Ruby’s interview with Dr. Sherri Tenpenny is spread out over 3 videos on her [Rumble channel](#). I have combined them into one video and abridged them down to under 25 minutes.

Dr. Sherri Tenpenny is not new to this topic, and so I highly recommend watching this video as they summarize where we are today with the COVID-19 shots, and what is likely coming in the future as we head into 2023. These two doctors are not looking to score political points or win popularity contests, as far as I can see, and are far more concerned with providing truth to educate the public.

This is on our [Bitchute](#) channel, and will also be on our [Odysee](#) and [Telegram](#) channels.
