Setting for massive escalation! Kuleba is Blinken's alter ego in Kiev. Good strategy — sends lightweight DFM to Delhi on charm offensive carrying letter addressed to PM & inviting NSA to Kiev, while preparing all-out war. They take Indians for zombies!

Pentagon leak bothers Biden for wrong reason. Will now double down & escalate war that is integral to Biden's election campaign, given scam involving his family's activities in Kiev circa 2014-2015. Zelensky is Biden's indispensable partner now & forever!
