

## What Zelenski was Told

### Description

From the Ukrainian TG-channel "Cartel":

"The gossip is that Xi today gave an ultimatum to Zelensky. Giving him a choice: either start the process for a Chinese-led peace settlement now, etc., or raise the stakes by going on the offensive and provoking a nuclear war.

Zelensky did not give an answer, but he understood the signal...

If the Britons press on with the offensive, then Xi's peace case proposal will no longer be relevant."
