Description

[Inside-Hamas.pdf](#)

Despite Israeli intelligence superiority, Hamas managed to bridge the intelligence gap and plan a precise and well-executed attack.

These capabilities were the result of immense work and effort within the brain battle with the enemy in the intelligence field.

The PDF linked above is a translation of an article in one of the Israeli newspapers about Hamas's intelligence capabilities in various branches of intelligence work.

A highly recommended read.

Note that this is a rough and a fast translation but covers everything.
