

Trump's Assassination Attempt, Real?

Description

A perfect picture for the MAGA crowd – Donald Trump has just been elevated to ‘hero’ status. The iconic Iwo Jima photo is now appropriated and impersonated by Trump, the charlatan. The new parody.

My first reaction was that it was staged. Five bullets from a sharp shooter 150 meters away and only one of the bullets pierced Trump’s year!? He ducked under the lectern, spent a bit of time there with the special service people and appeared with this “blood” on his face, which was no longer actually pouring. He is now declared a “hero”.

That was my first reaction. – How could this be staged? These people can stage 9/11, anything...

There are widespread concerns and questions about how a sniper was able to obtain rooftop access roughly 150 yards from the former president’s position at the podium at an outdoor rally.

After rally-goers spotted Crooks on the roof of a manufacturing plant just 130 yards from the stage where Trump was

speaking just after 6 p.m. Tuesday, police were notified and one officer climbed a ladder to investigate, law enforcement officials told The Associated Press on the condition of anonymity. The officer — whose department had been enlisted by the Secret Service to help with security — encountered Crooks, who pointed his AR-style rifle at them. The officer then backed down the ladder, and Crooks immediately took aim and loosed about eight shots at the former president — grazing him in the ear, killing one bystander in the rally crowd, and gravely wounding two others, the source said. After that volley of shots, Secret Service snipers shot Crooks dead.
