Can we interest you in some Treasury bonds? We're currently financing two wars and need some liquidity.

Don't worry about them losing their value, we're backing them with the U.S. military.

– Excuse me, would you like to buy a little bit of bonds from us? We're just funding two wars right now and we need a little liquidity. You don't have to worry about them getting cheaper, we're turning everything back and forth with the help of our military.

Janet Julius is faced with a situation where she has \$8 trillion in debt with a 12 month maturity that needs to be rolled over and refinanced at new, higher rates.

Ah, yes.... And another thing. The new deficit is between \$2 trillion and \$3 trillion. And so all of this needs new buyers.

It's just where are you going to physically get that amount of money? No one has that kind of free money.
