

## Jewish Christianity

### Description

It only makes sense when you look at what their religion says. They see themselves as “missionaries to the gentiles”. Jews are colonizers of Whites.

Just as Whites colonized the primitive races with the intention of spreading Christianity internationally; Jews colonized Whites by exporting their Christianity to Europe and replacing all the gentiles Gods with their own- a prophecy laid out in their religious texts.

Jews believe their actions influence the divine. They believe they must destroy the gentiles in order to create a gentile free world, allowing Jews to inherit the world.

It is pretty simple. Dont go complicating it with made up notions about Jews having a minority complex.
