

Israel's "Assault" of Gaza Mirrors "US Regime Change Wars"

Description

Max Blumenthal, Editor of Greyzone, has compared Israel's "wider goal of regime change" to a number of US-led conflicts and chaos of the past.

The US regime has given full throated support to Israel's murder of police officials in Gaza and the wider goal of regime change

This assault mirrors previous US regime change wars, where state institutions were destroyed, creating a vacuum filled by chaos, famine and despotism...
